

## Publikationsliste

Grüter B, Täschler D, Strange F, Rey J, von Gunten M, Grandgirard D et al.: Testing bioresorbable stent feasibility in a rat aneurysm model. *J NeuroIntervent Surg* 2019; 11(10): 1050-54.

Lüchinger R, Körner M: Weibliche Geschlechtsorgane. In: *PathoMaps*. Cerny T, Karlin K (Eds.), Springer, 2019;77.

Lüchinger R, Körner M: Schwangerschaftsassozierte Erkrankungen. In: *PathoMaps*. Cerny T, Karlin K (Eds.), Springer, 2019;87.

Savic S, Berezowska S, Eppenberger-Castori S, Cathomas G, Diebold J, Fleischmann A et al.: PD-L1 testing of non-small cell lung cancer using different antibodies and platforms: a Swiss cross-validation study. *Virchows Arch.* 2019; 475(1): 67-76.

Körner M, Waser B, Christ E, Beck J, Reubi JC: A critical evaluation of sst3 and sst5 immunohistochemistry in human pituitary adenomas. *Neuroendocrinology* 2018;106:116.

Meinel TR, Gottstein B, Geib V, Keel MJ, Biral R, Mohaupt M et al.: Vertebral alveolar echinococcosis - a case report, systematic analysis, and review of the literature. *Lancet Infect Dis* 2018; 18(3): e87-e98

von Rütte T, von Rütte S, von Gunten M, Schürch L: Seltene Ursache eines Priapismus – Die Visite findet unter der Bettdecke statt. *Schweiz Med Forum* 2017; 17(10): 244-46

Keil A, Hall SR, Körner M, Hermann M, Schmid RA, Frese S: Suppression of lupus nephritis and skin lesions in MRL/lpr mice by administration of the topoisomerase I inhibitor irinotecan. *Arthritis Res Ther* 2016 ;18:243.

Körner M: Specific biology of neuroendocrine tumors: Peptide receptors as molecular targets. *Best Pract Res Endocrinol Metab* 2016 ;30:19.

Körner M, Waser B, Strobel O, Büchler M, Reubi JC: Neurotensin receptors in pancreatic ductal carcinomas. *EJNMMI Res* 2015;5:17.

Marbacher S, Marjamaa J, Bradacova K, von Gunten M, Honkanen P, Abo-Ramadan U et al.: Loss of mural cells leads to wall degeneration, aneurysm growth, and eventual rupture in a rat aneurysm model. *Stroke* 2014; 45(1): 248-54.

Andereggen L, Neuschmelting V, von Gunten M, Widmer H R, Fandino J, Marbacher S: The role of micro-clot formation in an acute subarachnoid hemorrhage model in the rabbit. *BioMed Research International* 2014; 161702.

Andereggen L, Neuschmelting V, von Gunten M, Widmer H R, Takala J, Jakob S M et al.: The Rabbit Blood-shunt Model for the Study of Acute and Late Sequelae of Subarachnoid Hemorrhage: Technical Aspects. *J Vis Exp* 2014; 92: e52132.

Marbacher S, Neuschmelting V, Andereggen L, Widmer H, von Gunten M, Takkala J et al.: Early brain injury linearly correlates with reduction in cerebral pressure during the hyperacute phase of subarachnoid hemorrhage. *Intensive Care Med Exp*. 2014; 2(1):30.

Marbacher S, Frösén J, Marjamaa J, Anisimov A, Honkanen P, von Gunten M et al.: Intraluminal cell transplantation prevents growth and rupture in a model of rupture-prone saccular aneurysms. *Stroke* 2014; 45(12): 3684-90.

Adler S, Kolev M, Varisco PA, Tham M, von Gunten M, Tappeiner C et al.: Induction of severe systemic lupus erythematosus by TNF blockade and response to anti-IL-6 strategy. *J Allergy Clin Immunol* 2013; 131(4): 1235-7

Lehr HA, Moch H, Christen B, Safret A, Gugger M, Rössle M et al.: Board examination for anatomical pathology in Switzerland: two intense days to verify professional competence. *Virchows Arch* 2012; 461(1): 87-92

Marbacher S, Andereggen L, Neuschmelting V, Widmer HR, von Gunten M, Takala J et al.: A new rabbit model for the study of early brain injury after subarachnoid hemorrhage. *J Neurosci Methods* 2012; 208(2): 138-45.
